Subject: RE: Wal-Mart #2107-02 Lockport, NY - NFTA Bus Stop

Stephanie,

I apologize for the delay in responding to your earlier request regarding the proposed Wal-Mart in Lockport. We have reviewed the proposed routing and the bus dimensions used for the analysis. We don't operate any buses larger than the example used and the proposed routing would be acceptable to the NFTA. Please understand that a final determination on providing service would not be made until later in the process. We appreciate the opportunity to review and comment on your plans at this time.

Bob Gower
Manager, Planning
